Hello 9th (soon to be 10th) graders! I am so excited to meet you all in a few months. To ensure our smooth transition into APUSH, there are a few things I'd like you to review this summer. There will be two assessments shortly after our return to school. See you in September!

  - You are expected to work independently.
  - These are graded on answering the questions ACCURATELY. All answers are embedded in the videos.
  - There are no re-takes.
  - When we return to school you'll have an open-note test on the information in the videos (handwritten notes only)

### Part 2: Geography Review

Understanding the geography of the United States is crucial to understanding its history. Therefore you are expected to memorize the location of **each of the 50 states** as well as a few **key geographic features, territorial acquisitions, and regions** (to be assessed the first week of school).

- This means that you can FIND each of these locations on a map & also IDENTIFY what each state / location is when you see it on a map. (e.g. both "what state is this?" and "label New Jersey on the map")
- Practice games
